

HARSHINEE NADIMINTY

Tempe, AZ • +1 (623) 281-9088 • hnadimin@asu.edu • LinkedIn

Summary

Detail-oriented graduate student with experience in event operations, large-scale coordination, and community engagement. Skilled in communication, logistics, and managing high-volume environments, with proven ability to support events serving 1,000+ attendees and coordinate across teams effectively.

Experience

Backend Developer Intern – Nanobios Lab, IIT Bombay

Dec 2023 – Apr 2024

- Developed backend systems using Django, improving application reliability and supporting scalable research platform operations.
- Designed APIs and database structures, enabling efficient data handling and secure multi-user functionality.
- Collaborated with cross-functional teams, supporting integration of ML features into production-ready backend systems.

Campus & Community Involvement

Events Lead – Hindu Yuva, ASU

Fall 2026 (upcoming)

- Selected to lead large-scale events, improving coordination, volunteer performance, and overall attendee experience.
- Will manage end-to-end operations, streamlining scheduling, vendor coordination, and cross-team execution efficiency.

Social Media & Communications Handler – ACM, ASU

Present

- Managed communications for 5,000+ students, improving response efficiency and engagement across outreach channels.
- Supported event promotions, increasing participation for one of the largest student technology organizations on campus.
- Coordinated announcements and messaging, ensuring consistent communication across multiple platforms and audiences.

Event Operations Volunteer – ACM x GCN GlobeHack, ASU

2026

- Supported hackathon operations for 1,000+ participants, ensuring smooth execution of competitions and sponsor activities.
- Managed check-in for 300+ participants, reducing wait times and improving attendee entry flow efficiency.
- Coordinated food distribution logistics, ensuring timely service and resolving issues during high-attendance event operations.

Member – Milan Committee, Hindu Yuva, ASU

Present

- Contributed to Spring 2026 events, increasing participation across Mahashivratri, Ram Navami, Guru Vandana, and Basant Mela.
- Supported Mahashivratri skit planning, improving setup efficiency and ensuring smooth backdrop installation and teardown.
- Managed Ram Navami check-in operations, streamlining attendee entry processes and improving coordination efficiency.
- Coordinated Guru Vandana meals for 50+ attendees, ensuring seamless service for 30+ faculty and keynote guest.
- Supported Basant Mela (800–1000+ attendees), enabling smooth setup, food distribution, and multi-organization coordination.
- Facilitated DIY jewelry activities, increasing attendee engagement through interactive participation and hands-on experience.

Event Volunteer – Hindu Yuva & ISSC, ASU

Aug 2025 – Oct 2025

- Supported events with 1,000+ attendees, ensuring smooth execution of Ganesh Chaturthi and Navratri Nights.
- Assisted with check-in, crowd management, and logistics, improving organization during high-attendance campus events.

Education

M.S. Data Science, Analytics & Engineering

Arizona State University, Tempe, AZ

GPA: 3.5

Present

B.Tech Computer Engineering

University of Mumbai

CGPA: 8.6/10

May 2024

Skills

- **Core Skills:** Event Operations, Logistics Coordination, Communication, Team Collaboration
- **Tools:** Excel, Google Workspace, Power BI, Tableau
- **Technical:** Python, SQL, Data Analysis
